Communications Committee Update

Introducing the "What's Happening" Corner! As you can see with this Winter Edition, we've taken your feedback and started to change things up a bit. You wanted more varied content as well as insight into our Chapter organizations.

This new section is intended for featured organizations to share topics of interest, thought leadership, problems they are attempting to solve, partnerships, new implementation, lessons learned...whatever it is that you may be dealing with in your organization that another might be able to learn from, contribute insight on or just relate to. We are hoping this new edition will trigger discussion, relationships and who knows what else!

If you are interested in submitting an article please contact Az HFMA's Communications Committee Chair [Joan Goda](#).
